**LIQUID COOLED, LOW R.P.M. AUTOMOTIVE TYPE 1.6 LITER GAS ENGINE DELIVERS
20,000-30,000 WATTS PRIME CONTINUOUS POWER**

**COVERED BY POWER TECH'S
EXCLUSIVE 2 YEAR / 3000
HOUR LIMITED WARRANTY**

Available in Single Phase Or Three Phase, 60 or 50 Hz

- CARB AND EPA CERTIFIED 4 CYLINDER ENGINE
- 1800 R.P.M. Constant Speed Operation for long life (1500 RPM @ 50Hz)
- Alternating Current 4 Pole Synchronous Brushless Generator
- Automatic Voltage Regulator
- Main Line Set Mounted Circuit Breaker
- Isometric Vibration Isolated Mounting
- Radiator Cooled with Blower Fan, Fan Guards
- Dry Type Air Cleaner, Spin ON Oil Filter, In-Line Fuel Filter
- 12VDC Starting Motor
- Safety Shutdowns for High Water Temperature and Low Oil Pressure
- Critical Exhaust Silencer with Stainless Steel Exhaust Flex and Catalytic Converter
- Single Touch Start/Stop Switch with Condition Indicator Light
- Convenient Single Side Service and Corrosion Resistant Paint
- 12VDC Fuel Pump

Quiet, Dependable Power

Power Tech products are the pinnacle of perfection in power generation. We are one of the world's leading manufacturers and suppliers of mobile diesel generators. We offer an expansive generator selection ranging from 3KW to 300 KW for standby, marine generators, military projects and gas/diesel electric vehicles. Our products are distributed worldwide from our manufacturing base in Leesburg, Florida.
